

AIS Swim School | School Swimming Program 2017

Dear Parents/Guardians,

It is our goal that all children have the opportunity to learn to swim and enjoy the water safely. As such, we look forward to working with your child through the school swimming program to achieve this.

If this is the first time that your child is swimming with us, we would like to extend a warm welcome and hope that your experience here is a fantastic one. For those of you with children returning to our program, we would like to welcome you back and thank you for your continued support.

As a national award-winning program, we are proud to offer a program that caters to the individual needs of each student. We believe in quality over quantity and assess children based on their ability to perform strokes, not the distance or speed that they can swim.

In our experience, children swimming with incorrect technique over long distances can turn bad habits into a permanent part of their stroke. For this reason we prefer to teach basic skills over short distances before adding more advanced skills and distances.

Our AUSTSWIM qualified instructors will work with your child to ensure they feel more comfortable in the water, have improved their overall technique and are able to keep themselves safe in an emergency.

We look forward to having your child participate in our program.

Kind regards,

Swim School Management
