

Dear Parents and Carers,

As you are aware the Science Fair is rapidly approaching and we hope preparations at home are going smoothly. All projects are to be handed to Mrs Bobbi Smith by **Monday August 14.**

The Aranda Science Fair will be held in the Aranda school hall on **Wednesday August 16.** Classes will visit the Science Fair during the school day and parents and community members are invited to attend between 6:00pm-7:00pm that evening.

We have had a large amount of student interest and are excited to see the breadth of student science understandings and creativity on show at the Aranda Science Fair.

The winning entries at the Aranda Science Fair will receive free entry into the Science Educators' Association of the ACT (SEA\*ACT) Science Fair to be held in late August. The school will also arrange for the transportation of winning entries to the SEA\*ACT Science Fair at Theodore Primary School. All students entering the Aranda Science Fair are welcome to also enter the SEA\*ACT Science Fair, however there is a small entry fee involved (\$6.00 Individual, \$10.00 Group) and students will be required to arrange transport of their projects to the SEA\*ACT Science Fair.

Please visit <http://seaact.act.edu.au/science-fair/> for more details regarding the SEA\*ACT Science Fair.

We look forward to seeing you all at the Aranda Science Fair to celebrate the wonderful science learning that has taken place this year.

Scott Pearce  
Executive Teacher
